WILL MOVE THE POUND.

The First Ward Kicks on the Dumping Ground.

Alderman Frost was busily engaged yesterday afternoon about the city hall. He is from the First ward where is located the island, upon which the city has been dumping and burning garbage, and in which is located the pound. He was preparing a lease yesterday afternoon for a piece of land near the glue factory, so that for the coming summer the location of the pound will be at that place. The people living in the vicinity of the island will no longer permit the burning of garbage in that neighborhood. As soon as they learn this to be the intention of the council, the courts will be appealed to and an injunction asked restraining the dumping of garbage there. Alderman Frost said that "the channel, over which so much trouble occurred last year, will be cut through into the river. Last year the owners of the island objected because the water, they thought, would wash away their land. To have insisted at that time would have compelled the city to go into the courts. Now all that difficulty has been obviated. It has been agreed that if the city will cut a channel through, twelve feet wide at the top, six feet wide at the bottom, and board up the sides, that there will be no objection made. This will be done at once. The committee on health has been figuring all winter on a garbage burner, but they are costly concerns, and it requires the expenditure of \$30 per day to keep them running. On this account it was thought better to arrange it so that all garbage can be dumped on some piece of ground out of the city."
